

Other changes:

Added Figure 3 displaying cutouts of the LFBOT host galaxies

Added TDE hosts to Figure 11 (former figure 10).

Removed the AT2024aehp lightcurve figure comparing it with AT2018cow and the $t^{-5/3}$ decay (former figure 11), as we have removed the section of text that discusses it.

We add mention of an ATLAS detection for AT2023fhn in the Section A of the Appendix

Added Michael Camilo and Gokul P. Srinivasaragavan as co-authors
